

R-UPR 508i

R-Series Advanced Power Protection

A full line of products designed for the modern family with advanced features and characteristics needed for today's modern devices.

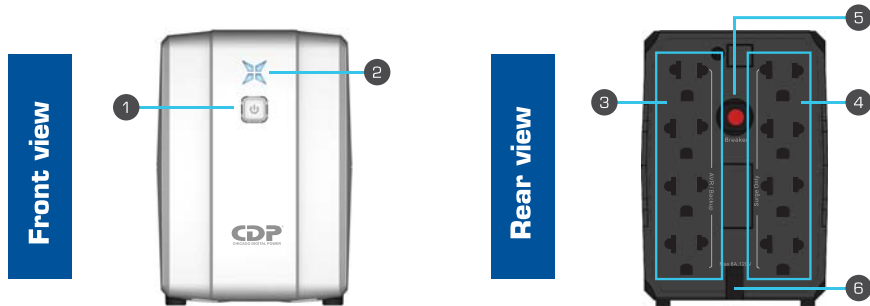

Interactive UPS with voltage regulation

The R-UPR series has a incomparable reliability operation for the protection of the user's videogame consoles and advanced working station. When the utility supply is normal the UPS protects the load against any high voltage while it uses energy to charge the internal battery . It features powerful microprocessor controls to enhance reliability with automatic voltage regulation.

Ideal for the complete protection of your computer equipment, routers, modems, sale terminals, videogames consoles and home theatres.

Features:

1. ON/OFF button and cold start
2. LED indicator
3. UPS/AVR outlets
4. Surge suppression outlets
5. Breaker
6. AC power plug

MODEL		R-UPR508i
Capacity		500VA/250W
Input	Voltage	220VAC
	Frequency	50/60 Hz (Automatic adjust)
	Voltage range	154-280VAC
Output	Voltage	220VAC+/-10 %
	Frequency	50Hz o 60 Hz +/-1Hz
	Voltage in battery mode	220VAC+/-10 %
	Wave form	Simulated sine wave
	Transfer time	2-4 ms (Typical)
	NEMA 5-15R	4 regulated and battery protected 4 with surge suppression
	Batteries	Voltage
	Type	12V/4.5AH * 1PC
	Charge time	4 hrs @ 90% after complete discharge
	Safety protection	Overload and discharge protection
	Advanced battery management	Yes
	Backup time (1 PC)	10 min
Audible alarm	Battery mode	2 short sounds every 8 sec
	Low battery	4 short sounds every second
	Overload	Continuous buzzer
	Critical	Continuous beeping
Function	DC start up function- Auto UPS restart- Low voltage protection- Audible alarm silencer - Off load mode	
Protection	Short circuit protection	Thermo magnetic and electronic breaker (Line mode).
	Lightning overload protection	300 Joules
Environment	Operating temperature	0° C -40° C (32°F -104°F)
	Humidity	0 - 95% (non condensing)
	Acoustic noise level	<40 dBA @ 1M
Dimensions (DxHxW) cm		30*9.5*14cm
Manufacturing service design		ISO9001 - 2008
